

Leeden NOX
The Gas Professionals

Integrated Solutions for Offshore Markets

About Us

Established in 1964, Leeden National Oxygen Ltd (Leeden NOX) has grown to become the region's leading manufacturer and distributor for integrated solutions in Gas, Welding and Safety. Operating as a Singaporean & Malaysian subsidiary of Nippon Sanso Holdings Corporation, a leading global industrial gas manufacturer, and member of the Mitsubishi Chemical Group Corporation, we are dedicated to providing tailored gas solutions to offshore enterprises that meet the highest standards of performance and safety.

Our commitment lies in serving offshore enterprises by delivering a wide range of gases, equipment, quad rental services, welding consumables, and safety equipment tailored to their specific needs.

As a leading industrial & specialty gas supplier in the region, we boast specialised and advanced production and storage facilities as well as engineering and consultancy capabilities. We are also a major distributor of welding and safety products, representing prominent brands in both areas. In addition, we offer a suite of related services to ensure our holistic solutions are tailored to customer needs.
